CONTENTS

VOLUME 1

LIST OF WORKSHOPS 1

PRESIDENTIAL ADDRESS
Everybody Knows—Or Do They? **
Kenneth R. Laughery, Sr.

AEROSPACE SYSTEMS

DESIGN, METHODS, AND WORKLOAD [Lecture]
Elizabeth A. Lyall (Chair)

A Framework for Design Traceability 2
Barbara J. Barnett, Christopher J. Arbak, J. Larry Olson, and Larry C. Walrath

Electronic Checklists: Implications for Decision Making 7
Kathleen L. Mosier, Everett A. Palmer, and Asaf Degani

Predictive Workload Models and Multiple Task Performance 12
Kenneth J. Sarno and Christopher D. Wickens

Establishing Workload Acceptability: An Evaluation of a Proposed KC-135 Cockpit Redesign 17
Justin Rueb, Michael A. Vidulich, and John Hassoun

AUTOMATION EFFECTS [Lecture]
John M. Reising (Chair)

Development and Validation of a Scale of Automation-Induced "Complacency" 22
Indramani L. Singh, Robert Molloy, Raja Parasuraman, and Saroj Parasuraman

Mode Error in Supervisory Control of Automated Systems 26
Nadine B. Sarter and David D. Woods

Automation Effects in the Cockpit: A Low-Fidelity Investigation 30
Coleen Thornton, Curt C. Braun, Clint A. Bowers, and Ben B. Morgan, Jr.

The Effects of Mixed-Fleet Flying of the Boeing 737-200 and 737-300 35
Elizabeth A. Lyall

SITUATION AWARENESS: MODELING, MEASUREMENT, AND IMPACTS [Panel] 40*
Carol Lynn A. Judge (Chair), James B. Bushman, Michael A. Vidulich, Michael R. Houck, Frederick M. Siem, David C. Perry, Jr., J. Raymond Comstock, Jr., and Cynthia O. Dominguez

COCKPIT DISPLAYS [Lecture]
Lisa F. Weinstein (Chair)

The Use of a Background Attitude Indicator to Recover from Unusual Attitudes 43
Kristen K. Liggett, John M. Reising, and David C. Hartsock

The Utility of a Ghost Horizon and Climb/Dive Ladder Tapering on a Head-Up Display 48
Lisa F. Weinstein, William R. Ercoline, and D. Foster Bitton

Comparison of a Head-Up Display Evaluation in Ground and Flight Simulation **
Valerie J. Gawron, Thomas Hughes, John Hassoun, and Randall Bailey

A God's Eye (Exocentric) versus Pilot's Eye (Egocentric) Frame of Reference for Enhanced Situational Awareness **
Woodrow Barfield, Tom Furness, Craig Rosenberg, and Alex Han

CONTROLS AND DISPLAYS [Lecture]
Dennis B. Beringer (Chair)

"Soft" Controls for Hard Displays: Still a Challenge 52
Asaf Degani, Everett A. Palmer, and Kristin G. Bauersfeld

The Use of 3D Auditory Perspective and Perspective-Auditory Display Formats for Directional Judgment Tasks **
Woodrow Barfield, Craig Rosenberg, and Mike Cohen

Multimodal Cockpit Warnings: Pictures, Words, or Both? 57
Stephen J. Selcon, Robert M. Taylor, and Roy A. Shadrake

SELECTION AND TRAINING [Lecture]
John K. Lauber (Chair)

Topographic EEG Correlates of the Basic Attributes Test for Air Force Candidate Selection 62
Maurice B. Sterman, David Kaiser, Christopher A. Mann, and James R. Francis

Analysis of En Route Air Traffic Controller Team Communication and Controller Resource Management (CRM) 66
Thomas L. Seamster, John R. Cannon, Richard M. Pierce, and Richard E. Redding

An Evaluation of an Altitude Awareness Study 71
Thomas M. Granda and Patricia J. Vingelis

Electroencephalographic Correlates of Psychological Defense 76
Maurice B. Sterman, Christopher A. Mann, H. R. Eriksen, Miranda Olff, and H. Ursin

AIDING, TRAINING, AND INFORMATION SYSTEMS FOR AVIATION MAINTENANCE AND OPERATIONAL ENVIRONMENTS [Symposium]

Symposium Abstract 81*
William T. Shepherd (Chair)

Human Factors Challenges in Aviation Maintenance 82
William T. Shepherd

Integrated Information for Maintenance Training, Aiding, and On-Line Documentation 87
William B. Johnson, Jeffrey E. Norton, and Leonard G. Utsman

*Abstract only
**Manuscript not submitted for publication

Computer-Simulated Aircraft Inspection Tasks for Off-Line Experimentation 92
K. A. Latorella, Anand K. Gramopadhye, P. V. Prabhu, Colin G. Drury, M. A. Smith, and D. E. Shanahan

An Empirical Evaluation of Tools to Aid in En-Route Flight Planning 97
Charles F. Layton, Phillip J. Smith, C. Elaine McCoy, and Thomas E. Bihari

FATIGUE AND STRESSOR EFFECTS [Lecture]
Barbara J. Barnett (Chair)

Sleep and Flight Duration Effects on the Subjective Fatigue of Pilots during Operation Desert Storm 102
Kelly J. Neville, Jonathan French, Roger U. Bisson, Patricia A. Boll, and William F. Storm

Effects of Long-Term Exposure to High G on Blood Oxygen Saturation and Performance 106
Kathy McCloskey, Stephen Popper, Daniel Repperger, and Lloyd Tripp

The Prediction of Cognitive Performance Degradations during Sustained Operations 111
Anna L. Rowe, Jonathan French, Kelly J. Neville, and Douglas R. Eddy

Operational and Human Factors Implications of Physiological Deconditioning in Long-Duration Space Flight 116
Mark A. Guidi and Dwight Holland

POTPOURRI: DISPLAYS AND SPACE SYSTEMS [Lecture]
Dieter W. Jahns (Chair)

Distance Metrics in Multifunction Displays 121
Karen S. Seidler and Christopher D. Wickens

Anthropomorphic Teleoperation: Controlling Remote Manipulators with the DataGlove 126
Joseph P. Hale II

Viewing Evaluation of the Two Cupola Locations on Space Station *Freedom* 131
Sheryl L. Stealey and Frances E. Mount

Test and Evaluation of a Zero-G Treadmill Restraint System 136
Glenn K. Klute and Albert Rodriguez

HUMAN FACTORS RESEARCH IN RESPONSE TO THE NATIONAL PLAN FOR AVIATION HUMAN FACTORS [Panel] **
James P. Jenkins (Chair), Sam A. Morello, Vic Lebacqz, John Wiley, and William T. Shepherd

AGING

DETERMINANTS OF AGE DIFFERENCES IN COGNITIVE PERFORMANCE [Lecture]
Robin A. Barr (Chair)

Memory Performance as a Function of Age, Reattribution Training, and Type of Mnemonic Strategy Training 141
Marilyn L. Turner

Age-Related Effects in Consistent Memory Search: Performance Is the Same, But What about Learning? 146
Brian P. Cooper, Mark D. Lee, Robert E. Goska, Marjo M. Anderson, Paul E. Gay, Jr., Lynne Anne Fickes, and Arthur D. Fisk

An Examination of the Adult Age Differences on the Raven's Advanced Progressive Matrices 151
Renee L. Babcock

Effects of Aging on Subjective Workload and Performance 156
Douglas L. Boyer, Jay G. Pollack, and F. Thomas Eggemeier

ASSESSING AGE DIFFERENCES IN PERFORMANCE VARIABLES [Lecture]
James L. Fozard (Chair)

Manual Performance of Older and Younger Adults with Supplementary Auditory Cues 161
Richard J. Jagacinski, Neil Greenberg, Min-Ju Liao, and Jian Wang

Age Changes in Speed and Accuracy of Hand Movements: The Baltimore Longitudinal Study of Aging **
George Erich Brogmus, Max Vercruyssen, Alan T. Welford, James L. Fozard, and Lisa N. Hashimoto

The Effects of Age and Target Location Uncertainty on Decision Making in a Simulated Driving Task 166
Thomas A. Ranney and Lucinda A. S. Simmons

Multivariate Model for Defining Changes in Maximal Physical Working Capacity of Men, Ages 25 to 70 Years 171
Andrew S. Jackson, Earl F. Beard, Larry T. Wier, and J. E. Stuteville

DESIGNING NEW TECHNOLOGIES FOR OLDER ADULTS [Lecture]
Sara J. Czaja (Chair)

Development of a Memory Aid Design Concept for Older Users 175
Mark Kirkpatrick, Randy M. Perse, Lisa A. Dutra, Michael A. Creedon, and Jiska Cohen-Mansfield

Thermostats for Individuals with Movement Disabilities: Design Options and Manipulation Strategies 180
Stephen V. Metz, Brian Isle, Sandra Denno, and James Odom

*Abstract only
**Manuscript not submitted for publication

Computer Anxiety and the Older Adult: Relationships with Computer Experience, Gender, Education, and Age 185
Jennifer L. Dyck and Janan Al-Awar Smither

The Processing of Synthetic Speech by Older and Younger Adults 190
Janan Al-Awar Smither

COMMUNICATION

PROVEN BENEFITS AND PROMISES [Lecture]
Robert W. Root (Chair)

Tools for Communicating with Chemical Information: A Cognitive Engineering Analysis 193
Wayne W. Zachary and James H. Hicinbothom

Methodology for Software Documentation Reuse 198
Marion M. Sherry

Telephone Service Center Call Duration Improvement 202
Robert E. Warren

Virtual Reality and Human Factors 207
John C. Thomas and Rory Stuart

IMPROVED USER CONTROL OF PHONE SERVICES [Lecture]
Michelle Martin (Chair)

Skip and Scan Telephone Menus: User Performance as a Function of Experience 211
Robert A. Virzi, Paul Resnick, and Don Ottens

A Usability and Diary Study Assessing the Effectiveness of Call Acceptance Lists 216
John P. Chin, Richard D. Herring, and M. Elliott Familant

Screen-Assisted Telephony and Voice Service Usability 221*
Richard D. Herring, Judith A. List, and Edward A. Youngs

Human Factors Problems in Interactive Voice Response (IVR) Applications: Do We Need a Guideline/Standard? 222
Daryle Jean Gardner-Bonneau

IMPROVING MEDIATED COMMUNICATION: ACOUSTIC, LINGUISTIC, AND VISUAL FACTORS [Lecture]
Yao-Chung Tsao (Chair)

Catch a Rising Tone: Selecting a Tone for a New Calling Service 227
Marc E. Fusco and Robert B. Katz

Control of Prosodic Features for Keyword Emphasis in a Text-to-Speech Synthesizer 232
Hiroshi Hamada and Jin'ichi Chiba

Measuring Human Performance as a Function of Speech Communication Using the Close Combat Test Bed (CCTB) Facility 237
Leslie A. Whitaker, Leslie J. Peters, and Jennifer A. Mitchell

Out of Site, Still in Mind? A Case Study in Video-Mediated Communication 242
Beverly L. Harrison, Mark H. Chignell, and Ronald M. Baecker

AUDITORY PERCEPTION [Symposium]

Symposium Abstract 247*
Ellen C. Haas (Chair)

A Pilot Study on the Perceived Urgency of Multitone and Frequency-Modulated Warning Signals 248
Ellen C. Haas

Masking between Spatially Separated Sounds 253
Michael D. Good and Robert H. Gilkey

Technology Advancements in Hearing Protection: Active Noise Reduction, Frequency/Amplitude Sensitivity, and Uniform Attenuation 258
John G. Casali

Systematic Errors Occur in the Discrimination of Complex Audio Signals 263
Jeffrey M. Gerth

COMPUTER SYSTEMS

KEYBOARD INPUT DEVICES [Lecture]
Charles N. Abernethy (Chair)

Infogrip Chordic Keyboard Evaluation 268
Hongzheng Lu and Fereydoun Aghazadeh

Use and Research Issues of a New Computer Keyboard 272
Karl H. E. Kroemer

Description and Prediction of Long-Term Learning of a Keyboarding Task 276
Mark L. McMulkin

Key Force and Typing Performance 281
David F. Loricchio

HANDWRITING, SPEECH, TOUCHSCREEN, AND OTHER INPUT TECHNIQUES [Lecture]
Andrew M. Cohill (Chair)

On Handwriting Recognition System Performance: Some Experimental Results 283
Paulo J. Santos, Amy J. Baltzer, Albert N. Badre, Richard L. Henneman, and Michael S. Miller

Enhanced Recognition Accuracy with the Simultaneous Use of Three Automated Speech Recognition Systems 288
Timothy P. Barry, Kristen K. Liggett, David T. Williamson, and John M. Reising

Touchscreen Interfaces for Alphanumeric Data Entry 293
Catherine Plaisant and Andrew Sears

A Comparison of Direct-Manipulation, Selection, and Data-Entry Techniques for Reordering Fields in a Table 298
Thomas S. Tullis and Marianne L. Kodimer

*Abstract only
**Manuscript not submitted for publication

CURSOR CONTROL AND OTHER INPUT TECHNIQUES [Lecture]
Janet L. Fath (Chair)

A Comparison of Three Pointing Devices: Mouse, Cursor Keys, and a Keyboard-Integrated Push Button — 303
David F. Loricchio

The Predictability of Cursor Control Device Performance Based on a Primitive Set of User Object-Oriented Cursor Actions — 306
Joseph D. Chase, Sherry Perdue Casali, and H. Rex Hartson

Cursor Control Device Use by Persons with Physical Disabilities: Implications for Hardware and Software Design — 311
Sherry Perdue Casali

COAS: Combined Object-Action Selection: A Human Factors Experiment — 316
John Falk Kelley and Jacob Ukelson

COLOR, MENUS, AND OTHER INFORMATION PRESENTATION TECHNIQUES [Lecture]
Douglas J. Gillan (Chair)

The Impact of Color Coding in Program Debugging — 321
Tjitra Kiki Widjaja

Increasing or Decreasing? The Menu Direction Effect on User Performance — 326
Ram R. Bishu and Ping Zhan

Organizing the Domain of Menus — 331
Stephen C. Gibbons

COMPUTER-BASED DISPLAYS I [Lecture]
Peter R. Nolan (Chair)

An Application of the Semantic Differential to Icon Design — 336
Rungtai Lin

Understanding the Image Functions for Icon Design — 341
Rungtai Lin and John G. Kreifeldt

Assessment of a Head-Mounted Miniature Monitor — 346
Joseph P. Hale II

Multiple Monitors versus Windowing Presentation Styles for Shop Floor Controls — 351
Shang H. Hsu and Chou Shen

COMPUTER-BASED DISPLAYS II [Lecture]
Philip J. Smith (Chair)

Making Queries Look Like Links: An Interaction Style for Information Exploration — **
Gene Golovchinsky and Mark H. Chignell

An Evaluation of Computer-Supported Backtracking in a Hierarchical Data Base — 356
Cortney G. Vargo, Clifford E. Brown, and Sarah J. Swierenga

A User Interface Design Concept for Visualization of Multidimensional Process Models — 361
Peter T. Bullemer, Stephen V. Metz, and Rose Mae Richardson

A Componential Model of Human Interaction with Graphs: II. Effects of the Distances among Graphical Elements — 365
Douglas J. Gillan and Michael Neary

TOOLS AND TECHNIQUES [Lecture]
Richard L. Henneman (Chair)

Machine-Recorded Protocols: Tools and Techniques — 369
John B. Smith, Dana Kay Smith, and Eileen Kupstas

Evaluating User Interface Development Tools — 374
Deborah Hix and Tim Ryan

Taking the "Task" out of Task Analysis — 379
Janet L. Fath and Randolph G. Bias

An Incremental Approach to User Systems Interface Design: Replacing the Prototype in X Windows Systems — **
Jeffrey W. Mahony and Mark W. Smith

COMPLEX SYSTEMS [Lecture]
Patricia M. Jones (Chair)

Maintaining Stasis: Why User Acceptance of Advanced Technology Is So Hard to Get (And What to Do about It) — 384
Frank L. Greitzer and Nancy J. Spalding

User-Centered Design in Manufacturing Applications: The Development of a Capacity Planning Tool — **
Sally M. Cohen

Architects at Work: The Structure of Design Information — 389
Andrew M. Cohill

Designing and Implementing Decision Aids for a Complex Environment Using Goal Hierarchies — 394
Monica Zubritzky Weiland, Boyd Cooke, and Brad Peterson

USABILITY AND RAPID PROTOTYPING [Lecture]
Thomas S. Tullis (Chair)

Does the Fidelity of Software Prototypes Affect the Perception of Usability? — 399
Michael E. Wiklund, Christopher W. Thurrott, and Joseph S. Dumas

Managing: To Succeed with Rapid Prototyping — 404
Jim A. Carter

Usability Testing versus Heuristic Evaluation: A Head-to-Head Comparison — 409
Robert W. Bailey, Robert W. Allan, and Patti-Jo Raiello

IDEAL: A Software Tool to Evaluate Interface Usability — 414
Stacey Ashlund and Deborah Hix

*Abstract only

**Manuscript not submitted for publication

DESIGN GUIDELINES [Lecture]
Elizabeth D. Murphy (Chair)

The Sophistry of Guidelines: Revisiting Recipes for Color Use in Human-Computer Interface Design 418
David D. Woods, Leila Johannesen, and Scott S. Potter

Advanced Control Room Design Review Guidelines: Merging Old and New 423
Richard J. Carter and Jerry A. Wachtel

The Effects of Using a Hypertext Tool for Selecting Design Guidelines 428
Jeffrey A. Fox

Usability Analysis of Design Guideline Data Base in Human-Computer Interface Design 433
Katsuhiko Ogawa and Shun-ichi Yonemura

COMPUTER SYSTEM POTPOURRI [Lecture]
Lorraine F. Normore (Chair)

The Turing Test of 1991 438
H. McIlvaine Parsons

The Interface between Human Factors and Design 443
Douglas J. Gillan and Randolph G. Bias

Standards, the Future, and Designers 448
Jim A. Carter

Relative Contribution of Training and Interface Design to Mental Model Assimilation 453
Peter H. Jones and David W. Biers

DESIGNING CONTROL ROOMS FOR THE YEAR 2000: NEW TECHNOLOGIES, NEW TECHNIQUES? [Symposium]

Symposium Abstract 458*
Edward L. Cochran (Chair)

Control Room User Interface Technology for the Year 2000: Evolution or Revolution? 460
Edward L. Cochran

The Intelligent Graphic Interface Project: Operator Interfaces for the Year 2000 465
John L. Crawford

Evolution of Control Rooms from Low Tech to High Tech: What Do We Do with All That New Technology? **
Christine M. Mitchell

Graphical Interfaces to Complex Systems: Separating the Wheat from the Chaff 470
John M. Flach and Kevin B. Bennett

CONSUMER PRODUCTS

AUTOMOTIVE APPLICATIONS [Lecture]
Norman C. Otto (Chair)

The Design of Automotive Acoustic Environments: Using Subjective Methods to Improve Engine Sound Quality 475
Norman C. Otto and Gregory H. Wakefield

A Pilot Study of the In-Vehicle Safety Advisory and Warning System (IVSAWS) Driver-Alert Warning System Design 480
Jason Erlichman

Power Window Control Location Stereotypes 485
O'Seong Kweon, Robert E. Schlegel, and Jerry L. Purswell

Menu System Suited to Novice and Experienced Users of an Automobile Navigation System 490
Beth A. Loring, Michael E. Wiklund, and Clark Smith

WARNING RESEARCH [Lecture]
Thomas J. Ayres (Chair)

Components of Perceived Risk for Consumer Products 494
Kent P. Vaubel and Stephen L. Young

A Methodological Taxonomy for Warnings Research 499
Thomas J. Ayres, Madeleine M. Gross, Donald P. Horst, and J. Neil Robinson

Effects of Two Type Density Characteristics on the Legibility of Print 504
Stephen L. Young, Kenneth R. Laughery, Sr., and Marilyn Bell

PRODUCT APPLICATIONS [Lecture]
Jennie J. Gallimore (Chair)

Operation of Controls on Everyday Products 509
W. Schoorlemmer and H. Kanis

Effectiveness of the C-Sharp for Reducing Ergonomic Problems at VDT Workstations 514
Jennie J. Gallimore, Michael E. Brown, Timothy P. Clarkston, and Paul A. Petachi

Shoe Cushioning and Related Material Properties 519
Ravindra S. Goonetilleke and Jennifer A. Himmelsbach

A Computer Keyboard Key Feel Study in Performance and Preference 523
Kenichi Akagi

LABELING FOR FOOD AND BEVERAGES [Lecture]
Michael J. Kalsher (Chair)

Connoted Quantity of Food Label Modifier Terms 528
Michael J. Kalsher, Michael S. Wogalter, and Carolyn M. Gilbert

The Influence of Audio-Video Instruction on Consumers' Selection of Nutritious Food Products 533
Diane M. Jessen and Michael S. Wogalter

Effects of Processing Depth on Memory for the Alcohol Warning Label 538
David P. MacKinnon, Alan W. Stacy, Liva Nohre, and R. Edward Geiselman

**Abstract only*
***Manuscript not submitted for publication*

EDUCATORS' PROFESSIONAL

INNOVATIVE IDEAS FOR LABORATORY EXERCISES [Panel] 543*
Subramaniam Deivanayagam (Chair), Ram R. Bishu, Andris Freivalds, Paul Green, and Chin Lee

EDUCATIONAL ISSUES IN HUMAN FACTORS [Lecture]
Andris Freivalds (Chair)

The Dictionary for Human Factors/Ergonomics: A Significant Reference Work in Human Factors 544
James H. Stramler, Jr.

Human Factors and Educational Quality 548
Barrett S. Caldwell

Integrated Workstations for the Instruction of Job Design and Evaluation 553
Andris Freivalds and Joseph H. Goldberg

Introductory Human Factors Engineering Courses: What Is Currently Taught 556
R. Darin Ellis and Joseph H. Goldberg

FIRST COURSE IN HUMAN FACTORS ENGINEERING: WHAT SHOULD BE TAUGHT? [Panel] 561*
Joseph H. Goldberg (Chair, Paul C. Champney, Keith S. Karn, Michael W. Riley, and Brian Peacock

INCREASING THE BREADTH OF THE HUMAN FACTORS SCIENTIST-PRACTITIONER [Symposium]

Symposium Abstract 563*
Curt C. Braun (Chair)

Foundations of Human Factors **
Peter J. McAlindon and Paul B. Kline

The Expert Witness 566
Jeanne L. Weaver, Jada D. Kearns, and Julie M. Urban

A Human Factors Tool Kit 568
Paul B. Kline and Peter J. McAlindon

The Human Factors Toxicologist 572
Julie M. Urban, Curt C. Braun, and Jeanne L. Weaver

ENVIRONMENTAL DESIGN

INTERACTIONS BETWEEN ENVIRONMENTAL DESIGN AND HUMAN FACTORS SPECIALISTS [Panel] 575*
Gerald F. McVey (Chair), Deane Evans, H. McIlvaine Parsons, John A. Templar, Stephan A. Konz, Daniel E. McCrobie, and Barrett S. Caldwell

PLANNING FOR ENVIRONMENTAL DESIGN AND FOLLOW-UP EVALUATIONS [Lecture]
Dawn R. Mitchell (Chair)

In the Era of ADA, Do We Really Have Accessible Bathrooms? A Survey 578
Pascal Malassigné and Thomas L. Amerson

AutoNet: An Application of a Neural Network Simulation as a Tool for Planning Office Layout 582
Michael J. O'Neill

User Assessments of Selected Lecture Halls and the Relative Merits of Architectural Standards and Ergonomic Guidelines 586
Gerald F. McVey and James D. Bethune

Environmental Evaluation of Control Rooms in Nuclear Power Plants 591
Shusa Hashimoto and Tadashi Nihei

FORENSICS PROFESSIONAL

FORENSICS PRACTICE: HEADACHES AND REMEDIES [Panel] 596*
Richard J. Hornick (Chair), Robert O. Besco, James L. Harris, Kenneth R. Laughery, Sr., and Mark S. Sanders

WARNINGS AND HAZARD PREVENTION [Lecture]
Daniel Johnson (Chair)

Swimming Pool Diving Accidents: Human Factors Analyses of Case Study Data 598
Kenneth R. Laughery, Sr., Stephen L. Young, and Anna L. Rowe

Effects of an Aversive Vicarious Experience and Modeling on Perceived Risk and Self-Protective Behavior 603
Evangeline A. Chy-Dejoras

Warning Compliance: Effects of a Video Warning Sign and Modeling on Behavior 608
Bernadette M. Racicot and Michael S. Wogalter

A Warning Label for Scaffold Users 611
Daniel A. Johnson

REAL-WORLD PROBLEMS AND PRACTICES IN FORENSICS [Lecture]
Dieter W. Jahns (Chair)

Qualifying as an Expert Witness and a Perspective on Negligence 616
Leighton L. Smith

The Application of an Expanded Accident Sequence Model to Forensic Human Factors 621
Gary D. Sloan

The Effects of the Image Factor in Televised Advertising on Consumer Perception 626
David M. Cohen and H. Harvey Cohen

*Abstract only
**Manuscript not submitted for publication

GENERAL SESSIONS

PRESIDENT'S FORUM **

NAS/NRC COMMITTEE ON HUMAN FACTORS: RETROSPECT AND PROSPECT [Symposium]
Raymond S. Nickerson (Chair)

The NAS/NRC Committee on Human Factors: What It Is and What It Does 631
Raymond S. Nickerson

Education, Training, and Training Technologies **
Joyce L. Shields

Human Factors Issues in Information Access **
Christopher D. Wickens

Emerging Technologies and Work Design **
Paul A. Attewell

ENVIRONMENTAL MANAGEMENT: INTERFACES WITH HUMAN FACTORS [Symposium]
Daniel J. Pond (Chair)

U.S. Department of Energy's Office of Technology Development Solves Environmental Restoration and Waste Management Problems 633
Donald Beck

Impact of Operation and Maintenance on the Performance of Energy Systems **
M. Kevin Drost

Human Factors in Environmental Management: New Directions from the Hanford Site **
James A. Wise and S. F. Savage

What Does Human Factors Research Have to Do with Environmental Management? 636
Raymond S. Nickerson

HUMAN ERROR AND MEDICAL DEVICES [Symposium]
Marilyn Sue Bogner (Chair)

Capturing Medical Device Error **
Marilyn Sue Bogner

Toward an Agenda for Error Research 640
Neville Moray

The Link between Design Errors in Human-Computer Interaction, Latent Failures, and System Disaster **
David D. Woods and Richard I. Cook

On the Remedies for Medical Error **
John W. Senders

INDUSTRIAL ERGONOMICS

LIFTING/MANUAL MATERIAL HANDLING [Lecture]
Waldemar Karwowski (Chair)

Some Ergonomic Considerations in the Design of Material Handling Devices 644
Marc L. Resnick and Don B. Chaffin

Fatigue Effect on Lifting Acceleration in Frequent Lifting 649
Youngjoun Kim, Kwan S. Lee, and Fereydoun Aghazadeh

Maximum Acceptable Weights of Lift for Common Coal Mine Supply Items 654
Sean Gallagher and Christopher A. Hamrick

Implications of the Proposed Revisions in a Draft of the Revised NIOSH Lifting Guide (1991) for Job Redesign: A Field Study 659
Waldemar Karwowski and Nina Brokaw

STRENGTH AND CAPACITY ISSUES [Lecture]
Fereydoun Aghazadeh (Chair)

Isometric Strength Capability for a Vertical Wheel-Turning Task 664
Jeffrey C. Woldstad, Christopher J. Rockwell, Christian A. Johnson, Mark L. McMulkin, and Paul B. McMahan

Effects of Gender, Lift Height, Direction, and Load on the Ability to Estimate Weight 669
Valerie J. Rice, Marilyn A. Sharp, Tania L. Williamson, and Bradley C. Nindl

Development of Prediction Models for Physical Work Capacity: Practical and Theoretical Implications 674
Chris W. Schacherer, Anna L. Rowe, and Andrew S. Jackson

Utilization of Direct Estimation Method to Predict the Maximum Acceptable Weight of Symmetrical and Asymmetrical Lift 679
Feng Chen, Fereydoun Aghazadeh, and Kwan Suk Lee

OCCUPATIONAL ERGONOMICS [Lecture]
Jeffrey E. Fernandez (Chair)

Ergonomic Improvement of a Machine Maintenance Procedure: A Case Study 684
Kelly A. Eckbreth

Validity of Isometric Strength Tests for Predicting the Capacity to Crack, Open, and Close Industrial Valves 688
Andrew S. Jackson, Hobart G. Osburn, Kenneth R. Laughery, Sr., and Kent P. Vaubel

Maximum Acceptable Frequencies (MAF) for Males Performing Drilling Tasks 692
Viswanath Vaidyanathan and Jeffrey E. Fernandez

The Evaluation of Occupational Ergonomics Programs 697
David C. Alexander and Gary B. Orr

*Abstract only
**Manuscript not submitted for publication

STRENGTH/POTPOURRI [Lecture]
Joseph M. Deeb (Chair)

Reach Posture Prediction of Upper Limb for Ergonomic Workspace Evaluation 702
Eui S. Jung, Dohyung Kee, and Min K. Chung

Predicting the Maximum Acceptable Weight of Lift for an Asymmetrical Combination Task 707
Tycho K. Fredericks, Jeffrey E. Fernandez, and Clarence C. Rodrigues

Perceived Exertion in Isometric Muscular Contractions Related to Age, Muscle, Force Level, and Duration 712
Joseph M. Deeb and Colin G. Drury

The Effects of Tool Type and Barrier on Time Required for a Remove and Replace Task 717
David E. Kancler, Glen C. Robbins, William F. Moroney, and David W. Biers

APPLICATIONS OF OPTIMIZATION IN BIOMECHANICS: CONSENSUS AND CONTROVERSY [Panel] **722***
Donald L. Fisher and Robert O. Andres (Chairs), Bryan Buchholz, Richard Hughes, and William S. Marras

POTPOURRI [Lecture]
Paul Ray (Chair)

Biomechanical Analysis of Locomotion Patterns in Earth, Lunar, and Martian Gravity Environments 724
Sudhakar L. Rajulu and Glenn K. Klute

Effect of Product Structure on Manual Assembly Performance 729
Girish V. Prabhu, Martin G. Helander, and Valerie L. Shalin

Heat Stress Associated with the Use of Tyvek® Coveralls in Asbestos Removal Inspection 733
Debra A. Griffith, William Reddan, and William Schmitz

Slip Distance as an Objective Criterion to Determine the Dominant Parameter between Static and Dynamic Coefficients of Friction (COFs) 738
Rohae Myung, James L. Smith, and Tom B. Leamon

BACK/TRUNK ERGONOMICS [Lecture]
William S. Marras (Chair)

The Effects of Lifting Posture on Trunk Muscle Activity 742
Christopher A. Hamrick and Sean Gallagher

Modeling the Stochastic Nature of Trunk Muscle Forces 747
Gary A. Mirka and William S. Marras

Trunk Muscle Activation while Resisting Asymmetrically Applied Loads in an Axially Rotated Posture 752
Steven A. Lavender, Yang-Hwei Tsuang, and Gunnar B. J. Andersson

Industrial Quantification of Occupationally Related Low Back Disorder Risk Factors 757
William S. Marras, Steven A. Lavender, Sue E. Leurgans, Sudhakar L. Rajulu, W. Gary Allread, Fadi A. Fathallah, and Sue A. Ferguson

HAND ERGONOMICS I [Lecture]
Robert G. Radwin (Chair)

Effects of Mass on Wrist Velocities and Accelerations 761
Jasper E. Shealy and Wendi Latko

Effects of Hand Vibration on Postural Stability 765
Lisa Fletcher, Hee-Seok Park, and Bernard J. Martin

Comparison of Power Grasp and Three-Jaw Chuck Pinch Static Strength and Endurance between Industrial Workers and College Students: A Pilot Study 770
Dianne L. McMullin and M. Susan Hallbeck

Development of a New Automated Tactility Test for Assessing Hand Sensory Function 775
Robert G. Radwin, One-Jang Jeng, Edward T. Gisske, and Young-Lae Park

ERGONOMICS RESEARCH EFFORTS IN THE SUPERMARKET INDUSTRY [Panel] **779***
Thomas J. Sluchak (Chair), Mark S. Hoffman, David J. Cochran, Katharyn Grant, Daniel Habes, and William S. Marras

HAND ERGONOMICS II [Lecture]
Andris Freivalds (Chair)

Application of Survival Analysis to Cumulative Trauma Disorder (CTD) Risk Assessment 783
Donghyun Park

Carpal Tunnel Syndrome Prevalence in a Heavy Railroad Maintenance and Repair Facility 788
Terry L. Stentz, Michael W. Riley, C. L. Glismann, John L. Ballard, and Richard C. Sposato

Grip Strength as a Function of Forearm Rotation and Elbow Posture 791
Robert J. Marley and Rob R. Wehrman

Effects of Full-Motion Forearm Supports and a Negative Slope Keyboard Support System on Hand-Wrist Posture while Keyboarding 796
James Robert Powers, Alan Hedge, and Michael G. Martin

HAND ERGONOMICS III [Lecture]
Michael Riley (Chair)

The Effects of Forearm Posture, Wrist Posture, Gender, and Hand on Three Peak Pinch Force Types 801
M. Susan Hallbeck, Abe H. Kamal, and Paul E. Harmon

Using Force-Sensitive Resistors to Evaluate Hand Tool Grip Design 806
Myung Hwan Yun, Kentaro Kotani, and R. Darin Ellis

Shape and Placement of Faucet Handles for the Elderly 811
Beverly A. Meindl and Andris Freivalds

*Abstract only
**Manuscript not submitted for publication

Force Distribution at Hand/Handle Coupling: The Effect of Handle Type 816
Ram R. Bishu, Wang Wei, M. Susan Hallbeck, and David J. Cochran

AUTHOR INDEX TO VOLUMES 1 AND 2 **821**

VOLUME 2

ORGANIZATIONAL DESIGN AND MANAGEMENT

MACROERGONOMIC CONSIDERATIONS IN INDIVIDUAL AND TEAM PERFORMANCE [Lecture]
Lawrence Schleifer (Chair)

Managerial Implications of Extended Breaks on Predicting Performance Times for Industrial Tasks 825
Robert D. Yearout, Darlene Hewitt, Donald D. Lisnerski, and Kelli Sprague

The Effects of Hierarchical Structure and Workload on the Performance of Team and Individual Tasks 829
Julie M. Urban, Clint A. Bowers, Ben B. Morgan, Jr., Curt C. Braun, and Paul B. Kline

Cross-Cultural Validation of a Function Analysis Model for Determining Minimal Safe Crew Size on Maritime Vessels 834
Hal W. Hendrick and Martha Grabowski

A Process for Developing Functional Generic Models for Determining Personnel Requirements 838
Hal W. Hendrick and Martha Grabowski

MACROERGONOMICS AND CHANGE IN ORGANIZATIONS [Lecture]
Ogden Brown, Jr. (Chair)

Continuous Improvement Efforts Often Dictate Organizational Change: What Are the Mechanisms for Change? 843
Robert L. Getty

"It's Not Supposed to Work that Way!" Applying Chaos Science to Work in Organizations 848
Glenda H. Eoyang and Susan M. Dray

Human Factors Engineers as Change Agents 851
Donna J. Caccamise, Bruce P. Hallbert, Gerald L. Harbour, and Lee C. Francis

Change by Design, Human Factors by Necessity: Lessons in Participatory Ergonomics 855
Andrew S. Imada and Monte E. Bowman

MACROERGONOMIC APPROACHES TO USER-CENTERED DESIGN [Lecture]
Bruce G. Coury (Chair)

A Macroergonomic Approach for Improving Safety and Work Design 859
Mitsuo Nagamachi and Andrew S. Imada

Considerations in the Design of Future Retail Point-of-Service (POS) Terminal Systems 862
Mark S. Hoffman

The Role of a Group-Centered Approach in the Development of Computer-Supported Collaborative Design Technologies 867
Michael D. McNeese, Brian S. Zaff, Clifford E. Brown, Maryalice Citera, and A. Rodney Wellens

Looking Back for the Future: Learnings about User-Centered Design 872
Susan M. Dray and Debra S. George

SCENES FROM THE FRONT LINE: IMPLEMENTING ERGONOMICS IN ORGANIZATIONS [Panel] **875***
Susan M. Dray (Chair), Nancy J. Larson, Regina Neese, Thomas Albin, and Mitsuo Nagamachi

CONTEXT AND COMMUNICATION IN ORGANIZATIONS [Lecture]
Leighton L. Smith (Chair)

Experience, Utility, and Situational Appropriateness: How Does Organizational Context Influence Usability of Electronic Communications Media? 876
Julie A. Maryniak and Barrett S. Caldwell

Communication Media Acceptance in Organizations: An Alternative Research Model 881
Lilas H. Taha and Barrett S. Caldwell

Computers and Human Communication in the Organization: A Psychosocial Perspective on the Individual and the Society in Change—Research in Progress 886
Gunilla Bradley

Effects of Work Space Design and Environmental Control on Office Workers' Perceptions of Air Quality 890
Michael J. O'Neill

NEW DIRECTIONS OF COCKPIT RESOURCE MANAGEMENT TRAINING [Panel] **895***
James Taylor and Michelle M. Robertson (Chairs), Robert L. Helmreich, Barbara Kanki, Alan Diehl, and Paul J. Sherman

PERSONALITY AND INDIVIDUAL DIFFERENCES IN HUMAN PERFORMANCE

PREDICTING PERFORMANCE [Lecture]
Marilyn Sue Bogner (Chair)

Individual Differences in the Performance of a Process Control Task 897
Beverly Messick Huey and Deborah A. Boehm-Davis

*Abstract only
**Manuscript not submitted for publication

Diversity in Field Articulation and Its Implications for Human-Computer Interface Design 902
Kay M. Stanney and Gavriel Salvendy

Predicting Performance in Army Aviation Flight Training 907
Gabriel P. Intano and William R. Howse

Evaluation of a Minority Scoring Key for the Aviation Selection Test Battery Biographical Inventory **
David R. Street and Daniel L. Dolgin

INDIVIDUAL DIFFERENCES IN SKILL ACQUISITION [Symposium]
Phillip L. Ackerman (Chair)

Determinants of Visual Search Performance: Age and Practice Effects 912
Wendy A. Rogers, Arthur D. Fisk, and Christopher Hertzog

Acquisition and Transfer of Spatial Rotation and Assembly Skills: Two Speed-Accuracy Studies 917
David F. Lohman

Components of Cognitive Skill Acquisition **
Patrick C. Kyllonen

Abilities and Individual Differences in Complex Skill Acquisition 921
Phillip L. Ackerman

SAFETY

WARNING! [Lecture]
John G. Casali (Chair)

Likelihood of Reading Warnings: The Effect of Fonts and Font Sizes 926
Curt C. Braun, N. Clayton Silver, and Barry R. Stock

Perceived Effectiveness of Danger Signs: A Multivariate Analysis 931
Donald J. Polzella, Michael D. Gravelle, and Ken M. Klauer

Effects of Warning Signal Words on Consumer Product Hazard Perceptions 935
Michael S. Wogalter, Stephen W. Jarrard, and Stacy Noel Simpson

Warnings and Expert Opinions: An Evaluation Methodology Based on Fuzzy Probabilities 940
John G. Kreifeldt

SAFETY: PRACTICES AND PERSONAL PROTECTION [Lecture]
David M. DeJoy (Chair)

Human Factors Support of NASA's Safety Directorate on the Space Station Processing Facility (SSPF), Kennedy Space Center, Florida 945
H. Greig Lindner

The Importance of Sound-Field Acoustic Specification for Hearing Protector Performance Measurement 950
Daniel W. Mauney, Gary S. Robinson, and John G. Casali

Estimating the Height of a Suspended Wire 955
R. Quinn Brackett, Valmon J. Pezoldt, and Laura Roush

Control/Response Compatibility, Muscle Synergy, and the Virtual Visual Field: What You See Is What You Get 960
Dennis B. Beringer and Charles J. Worringham

TRANSPORTATION SYSTEMS SAFETY [Lecture]
Jeffrey Woldstad (Chair)

Using Transportation Accident Data Bases in Human Factors Research 965
David L. Mayer and Vernon S. Ellingstad

Initial Driver Foot Placement as an Antecedent to Pedal Error 970
Laura Roush, Valmont J. Pezoldt, and R. Quinn Brackett

Work Practices and Fatigue in the Long-Distance Road Transport Industry in Australia 975
Anne-Marie Feyer and Ann M. Williamson

Individual Differences and Driver Response to Highway Intersections 980
Monty G. Grubb

ARNOLD M. SMALL LECTURE IN SAFETY [Lecture]
Jerry Duncan (Chair)

Where Human Factors Fails: Ergonomics versus the World of Design and Manufacture **
Donald A. Norman

CONTEMPORARY ISSUES IN INDUSTRIAL SAFETY [Lecture]
Robert D. Dryden (Chair)

Sitting on the Ergonomic Hot Seat 984
Kent W. Rowe

Human Factors Influencing Machine-Related High-"Cost" Accidents in Industrial Operations 987
George Erich Brogmus and Najmedin Meshkati

Estimation of Safe Distance from the Robot Arm as a Guide for Limiting Slow Speed of Robot Motions 992
Waldemar Karwowski, Hamid R. Parsaei, A. Soundararajan, and N. Pongpatanasuegsa

The Proportion of Cumulative Trauma Disorders of the Upper Extremities in U.S. Industry 997
George Erich Brogmus and Richard Marko

**Abstract only*
***Manuscript not submitted for publication*

HUMAN FACTORS ISSUES IN AUTOMOTIVE FRONT-TO-REAR-END COLLISION WARNING SYSTEMS [Symposium]

Symposium Abstract 1002*
Avraham D. Horowitz (Chair)

The Potential Value of a Frontal-to-Rear-End Collision Warning System Based on Factors of Driver Behavior, Visual Perception, and Brake Reaction Time 1003
Daniel V. McGehee, Thomas A. Dingus, and Avraham D. Horowitz

Visual Factors in the Avoidance of Front-to-Rear-End Highway Collisions 1006
David Regan, S. Hamstra, and S. Kaushal

Warning Signal Design: A Key Human Factors Issue in an In-Vehicle Front-to-Rear-End Collision Warning System 1011
Avraham D. Horowitz and Thomas A. Dingus

Human Factors of Vehicle Collison Avoidance Systems: A Driving Simulator Study **
Wiel H. Janssen, Lena Nilsson, and Hakan Alm

RISK PERCEPTION AND ACCIDENTS [Lecture]
C. Pat Koelling (Chair)

Relative Contribution of Likelihood and Severity of Injury to Risk Perceptions 1014
Stephen L. Young, Michael S. Wogalter, and John W. Brelsford, Jr.

Managing Risk under Time Stress 1019
Kip Smith and Peter A. Hancock

Accidents with Consumer Products 1024
M. F. Weegels

POTPOURRI IN SAFETY [Lecture]
Thomas A. Dingus (Chair)

The Influence of Location and Pictorials on Behavioral Compliance to Warnings 1029
Michael S. Wogalter, Michael J. Kalsher, and Bernadette M. Racicot

Test Methods in Safety Standards: Application of Human Factors Data 1034
René Hoefnagels and Marian Schoone-Harmsen

The Combined Effect of Task Difficulty and Time-on-Task on Pilot Fatigue **
Jonathan M. Hankey and Thomas A. Dingus

Occupation and the Causes of Fatalities at Work 1039
Ann M. Williamson, Anne-Marie Feyer, and David Cairns

SPECIAL SESSIONS

WHAT IS MORE IMPORTANT IN INFORMATION DESIGN—HARDWARE AND SOFTWARE OR CONTENT AND FORMAT PRINCIPLES? [Debate] **1044***
Robert J. Smillie (Chair), Harry L. Snyder, David Gunning, Kay Inaba, and Harold R. Booher

DEMONSTRATIONS

Ergonomics Analysis and Problem-Solving Software Program 1045*
Mike Burke

Star Cruiser: A Laboratory Task for Investigating Dynamic Decision Making 1046*
Kellie S. Keifer, Jennifer S. Lanham, Alexander Kirlik, and Robert Jay Shively

Ternary Chord Keyboard: An Evaluation of an Alternative Data Input Device **
Lawrence W. Langley

Aircrew Coordination Training for All Crew Members: Enhancing the Capability of Full-Mission Flight Simulators 1047*
Randall L. Oser, Thomas M. Franz, and Jean Zovko

Incident Retrieval from NASA's Aviation Safety Reporting System 1048*
Sheryl L. Chappell and Richard J. Tarrel

THERE IS NOTHING NEW IN CYBERSPACE: A MOTION FOR DEBATE [Debate] **1049***
Maxwell J. Wells (Chair), Myron Krueger, Thomas B. Sheridan, Stephen Ellis, and Harold P. Van Cott

COMMUNICATIONS TECHNICAL GROUP FORUM: FROM POTS TO PIXELS [Symposium]

Symposium Abstract 1050*
Monica Marics and Mary R. Smith (Chairs)

Phone-Based Interfaces: Research and Guidelines 1051
Robert M. Schumacher, Jr.

Touch-Tone User Interface Standards **
Steven H. Lewis

Integrating Speech Recognition and Speech Synthesis in the Telephone Network **
Sara Basson

Display-Based Telephony **
Mitch A. Brisebois

AN ECOLOGICAL APPROACH TO HUMAN-MACHINE SYSTEMS [Forum] **1056**
John M. Flach and Peter A. Hancock (Chairs)

DEMONSTRATIONS

Photo CD Consumer Player User Interface Design 1059*
David B. Mitropoulos-Rundus

*Abstract only
**Manuscript not submitted for publication

A Low-Fidelity Paradigm for Aircrew Coordination Research and Performance 1060*
Clint A. Bowers and Curt C. Braun

Integrated Decision/Engineering Aid (IDEA) Enhancements 1061*
Christopher C. Heasly and Thomas B. Malone

A High-Performance, Low-Cost, Active, Two-Degree-of-Freedom Hand Controller 1062*
Lee Levitan, Robert E. DeMers, and Brian Schipper

SYSTEM DEVELOPMENT

INTELLIGENT VEHICLE HIGHWAY SYSTEMS (IVHS): HUMAN FACTORS ISSUES IN SUBSYSTEM DEVELOPMENT [Symposium]

Symposium Abstract 1063*
Truman M. Mast and Joseph I. Peters (Chairs)

Human Factors and the Automated Highway System 1064
Elizabeth Alicandri and M. Joseph Moyer

Human Factors and Advanced Traffic Management Systems 1068
Joseph I. Peters and King M. Roberts

Human Factors and Advanced Traveler Information Systems (ATIS) 1073
William A. Perez and Truman M. Mast

Human Factors and Commercial Vehicle Operations 1078
Deborah A. Boehm-Davis and Truman M. Mast

EXTENDING MILITARY HUMAN FACTORS [Lecture]
William W. Banks (Chair)

From Military Command and Control to Bond Trading: The Human Factors Process **
Eric M. Grose and Mark W. Smith

Combat Effectiveness Measures: An Update 1082
Edward M. Connelly and Kent Myers

Tactical Symbology Standards 1087
Mark Kirkpatrick, Lisa A. Dutra, Robert A. Lyons, Glenn A. Osga, and John J. Pucci

Improving the Interface between Human Factors Data and Designers: Exemplified in a CASHE Reaction Time Prototype 1092
Leslie A. Whitaker and William F. Moroney

PROTOTYPING IN SYSTEMS DEVELOPMENT [Lecture]
Robert M. Waters (Chair)

Human Engineering Requirements for Rapid Prototyping of Operator/Maintainer Interfaces: A Proposed Military Standard 1096
Bruce A. Steiner

Metaprototyping: System Prototyping for ATC System Development 1101
Russell A. Benel

Developing Behavioral Phenomena Test Benches 1106
Donald L. Monk, Sarah J. Swierenga, and Janet E. Lincoln

Prototype Classification and User Interface Management during the Requirements Analysis Phase of System Acquisition 1110
Charles D. Bowen

MULTIMODAL APPROACHES TO TRANSPORTATION HUMAN FACTORS [Symposium]
Barry H. Kantowitz (Chair)

Heavy Vehicle Driver Workload Assessment: Lessons from Aviation 1113
Barry H. Kantowitz

Human-Centered Designs in Commercial Transport Aircraft 1118
Rolf J. Braune and R. Curtis Graeber

Human Factors in Maritime Applications: A New Opportunity for Multimodal Transportation Research 1123
Thomas F. Sanquist

Age and Fatigue as Multimodal Transportation Issues **
Thomas J. Triggs

POTPOURRI OF HFE [Lecture]
Donald L. Schurman (Chair)

Human System Integration (HSI) and MANPRINT Requirements and Tools 1128
Thomas B. Malone, Christopher C. Heasly, Mark Kirkpatrick, Randy M. Perse, Patricia J. Vingelis, and Daniel L. Welch

Liveware Survey of Human Systems Integration (HSI) Technologies: Need for Comprehensive Survey and Available Data Base 1133
Frank C. Gentner and Mona J. Crissey

Development of Job Performance Aids to Increase Human Performance Reliability: A Case Study in the Evaluation of Human Factors Principles 1138
Bruce P. Hallbert, Michael A. Rodriguez, Gerald L. Harbour, Donna J. Caccamise, and John W. Keller

Operators' Monitoring Patterns and Fault Recovery in the Supervisory Control of a Semiautomatic Process 1143
John D. Lee and Neville Moray

GENERAL STUDIES [Lecture]
Michele Terranova (Chair)

Quality Metrics for Human Factors Process Improvement **
Miriam E. Kotsonis and Darren A. Kall

Ergonomic Analysis of Materials Handling and Design Guidelines for a New Central Public Library 1148
Judy Village, Brian Campbell, and John Cull

Safety: A Strategic Tool for Improving Manufacturing Systems 1153
Rapinder S. Sawhney and Laura J. Knight

Human Factors and Safety Issues Associated with Actinide Retrieval from Spent Light Water Reactor Fuel Assemblies 1158
Philip F. Spelt

*Abstract only
**Manuscript not submitted for publication

THE ROLE OF COMPLEXITY IN HUMAN PERFORMANCE, MEMORY, AND TRAINING [Symposium]

Symposium Abstract 1163*
Thomas A. Plocher (Chair)

Review of Concepts and Approaches to Complexity 1166
John A. Modrick

The Role of Complexity on Retention of Psychomotor and Procedural Skills 1171
Robert A. Wisher

A Review of ANETS: A Model of Cognitive Complexity of Displays 1176
Richard A. Chechile

The Impact of Trends in Complexity in the Cockpit on Flying Skills and Aircraft Operation 1181
Elizabeth A. Lyall and Barry Cooper

TEST AND EVALUATION

EVALUATION OF TEST AND EVALUATION METHODOLOGIES [Lecture]
William F. Moroney (Chair)

Application of the Subjective Workload Assessment Technique to Aviation Test and Evaluation 1185
Steven L. Hale and Dino Piccione

An Accuracy Analysis of Techniques for Measuring the Durations of In-Car Manual Tasks 1190
Barry S. Grant and Walter W. Wierwille

Mental Models of Mental Models: A Comparison of Mental Model Measurement Techniques 1195
Anna L. Rowe, Nancy J. Cooke, Kelly J. Neville, and Chris W. Schacherer

Effects of Using a Diagnostic Rule-Based Expert System Developed for the Nuclear Industry 1200
Tor Endestad, Conny B. O. Holmstroem, and Frode S. Volden

TEST AND EVALUATION: USABILITY TESTING [Lecture]
Alvah C. Bittner (Chair)

Team Usability Testing: Are Two Heads Better Than One? 1205
George S. Hackman and David W. Biers

Reducing Stress Associated with Participating in a Usability Test 1210
Jaclyn R. Schrier

Software Usability Testing: Do Evaluator Intervention and Task Structure Make Any Difference? 1215
Joseph E. Held and David W. Biers

Method Bias and Concurrent Verbal Protocol in Software Usability Testing 1220
Richard B. Wright and Sharolyn A. Converse

SUBJECTS IN HUMAN FACTORS [Symposium]

Symposium Abstract 1225*
William F. Moroney (Chair)

Subjects in Human Factors: Just Who Are They? 1227
William F. Moroney and Jack Reising

Subjects in Human Factors: Evaluation of Subject-Condition (SxC) Interactions 1232
Alvah C. Bittner, Jr., and Allen T. Bramwell

Subjects in Human Factors: What Are They Thinking? 1237
David Meister and Thomas P. Enderwick

Subjects in Human Factors: Who Should They Be? 1241
Tammy E. Fleming, Steven J. Morrissey, and Rhonda A. Kinghorn

TEST AND EVALUATION IN ACTION [Lecture]
Michael G. Lilienthal

Engine Sound Quality Evaluation Using Semantic Differential Method 1244
Kuang C. Wei and Norman C. Otto

Integrating Microgravity Test Data with a Human-Computer Reach Model 1249
Mihriban Whitmore, Ann M. Aldridge, Randy B. Morris, Abhilash K. Pandya, Robert P. Wilmington, Dean G. Jensen, and James C. Maida

Stages of User Activity Model as a Basis for User-System Interface Evaluations 1254
Donna L. Cuomo and Charles D. Bowen

Psychometric Evaluation of the Poststudy System Usability Questionnaire: The PSSUQ 1259
James R. Lewis

TRAINING

SKILL TRAINING: ANALYSIS AND TRAINING APPROACHES [Lecture]
Michael Singer (Chair)

Simulation and Analysis of Perceptual-Motor Skill Training 1264
Donald L. Fisher, Robert A. Wisher, James T. Townsend, and Mark A. Sabol

A Cognitive Framework for Integrated Embedded Training and Decision Aiding 1269
Joan M. Ryder, Allen L. Zaklad, Wayne W. Zachary, and Janine A. Purcell

A Training Approach for Context-Sensitive Skills: An Example with Typeface Selection 1274
Barbara Keough, Valerie L. Shalin, and Paul McKenna

Incident Evolution and Task Demands: An Analysis and Field Study of "Going Sour" Incidents 1279
Yan Xiao, Paul Milgram, and D. John Doyle

*Abstract only
**Manuscript not submitted for publication

DEVELOPMENT OF SKILL TRAINERS BASED ON COMPUTER GAMES: PROSPECTS AND ISSUES [Symposium]

Symposium Abstract 1284*
Daniel Gopher (Chair)

The Transfer of Skill from a Computer Game Trainer to Actual Flight 1285
Daniel Gopher, Maya Weil, and Tal Bareket

Field Test of Video Game Trainer 1291
Sandra G. Hart and Vernol Battiste

Video Games, Training, and Investigating Complex Skills 1296
Wayne L. Shebilske and J. Wesley Regian

LEARNING AND VISUAL SEARCH TASKS [Lecture]
Ruth Willis (Chair)

Secondary Task Assessment of the Workload Associated with Spatial Pattern Search under Automatic and Controlled Processing 1301
Brian P. Cooper, F. Thomas Eggemeier, Greg C. Elvers, and Ravi S. Adapathya

Learning in Consistent Search-Detection Tasks: Type of Search (Memory vs. Visual) Determines Type of Learning 1306
Gregory M. Corso, Kevin A. Hodge, and Arthur D. Fisk

Degree of Task Consistency and Maintenance of Skill Level in Semantic Category Visual Search 1311
Mark D. Lee

Recognition of Nonstudied Visual Depictions of Aircraft: Improvement by Distributed Presentation 1316
Stephen W. Jarrard and Michael S. Wogalter

ANALYZING WORKLOAD, MODELING EXPERTISE, AND MAINTAINING MOTIVATION IN EXPERIMENTS [Lecture]
Richard Gibson (Chair)

Analysis of Operational Errors and Workload in Air Traffic Control 1321
Richard E. Redding

Expertise in Air Traffic Control (ATC): What Is It, and How Can We Train for It? 1326
Richard E. Redding, John R. Cannon, and Thomas L. Seamster

Modeling Pilot Expertise in Air Combat 1331
Gary S. Thomas, Richard W. Obermayer, William B. Raspotnik, and Wayne L. Waag

Maintaining Subject Motivation in Long-Term Experiments Using Performance Incentives and Penalties 1335
Annette L. Fiorita, Matthew S. Middendorf, and Grant R. McMillan

TEAM PROCESS MEASUREMENT FOR TEAM TRAINING: ISSUES AND ADVANCES [Symposium]

Symposium Abstract 1340*
David P. Baker (Chair)

Measuring Process in Team Performance and Training 1342
Mary D. Zalesny and Eduardo Salas

Training and Evaluating Team Process Skills in the Commercial Aviation Environment 1346
J. Randolph Law and Terry J. McFadden

Team Process Measurement and Implications for Training 1351
Ashley Prince, Michael T. Brannick, Carolyn Prince, and Eduardo Salas

An Index for Measuring Naval Team Performance 1356
Daniel J. Dwyer

TRAINING AND HUMAN FACTORS: IMPLICATIONS FOR WORK FORCE COMPETITIVENESS AND NATIONAL EDUCATIONAL PROBLEMS [Panel] **1361***
Douglas Griffith (Chair), Hank Ruck, Sharolyn A. Converse, Philip J. Smith, and John Brock

VISUAL PERFORMANCE

PERCEPTUAL AND COGNITIVE PROCESSING [Lecture]
Michael Venturino (Chair)

Quantifying the Goodness of Mental Representations of Spatial Relationships 1363
Michael Venturino and Eric Geiselman

Visual Mental Rotation: Different Processes Used by Pilots 1368
Itiel E. Dror

Perceptual Skill and the Cerebral Hemispheres 1373
Anthony J. Aretz

Perception of Oncoming Vehicle Time to Arrival 1378
Jeff K. Caird and Peter A. Hancock

ALTERNATIVE DISPLAY FORMATS [Lecture]
John J. Uhlarik (Chair)

Comparison of Stereoscopic and Perspective Spatial Display Formats for Exocentric Judgment Tasks **
Woodrow Barfield and Craig Rosenberg

Spatial and Temporal (RAPCOM) Visual Display Formats and the Proximity Compatibility Principle 1383
John J. Uhlarik and Kurt M. Joseph

The Effects of Legibility and Display Size on Performance for RAPCOM and Spatial Display Formats 1388
Kurt M. Joseph and John J. Uhlarik

Alignment, Scaling, and Size Effects in Discrimination of Graphical Elements 1393
Justin G. Hollands

*Abstract only
**Manuscript not submitted for publication

ATTENTION AND PERFORMANCE [Lecture]
Michael A. Vidulich (Chair)

Does Secondary Task Measure Outcome Conflict or Resource Allocation? 1398
Pamela S. Tsang and Tonya L. Shaner

Is Performance Trade-off an Experimental Artifact? 1403
Velma L. Velazquez and Pamela S. Tsang

The Vertical Visual Field and Implications for the Head-Up Display 1408
Robin Martin-Emerson and Christopher D. Wickens

Multimodal Measures of Mental Workload during Dual-Task Performance: Energetic Demands of Cognitive Processes 1413
Richard W. Backs and Arthur M. Ryan

VISUAL TARGET ACQUISITION: BRIDGING THE GAP FROM VISION RESEARCH TO APPLIED MODELS [Symposium]

Symposium Abstract 1418*
Theodore J. Doll (Chair)

Visual Search and Detection in Background Clutter 1420
Theodore J. Doll, Shane W. McWhorter, and David E. Schmieder

Target Acquisition in Cluttered Environments 1425
Deborah P. Birkmire, Robert Karsh, B. Diane Barnette, and Ramakrishna Pillalamarri

Linear and Nonlinear Processes in Visual Pattern Discrimination **
Hugh R. Wilson

A Model of Mechanisms Mediating Spatial Pattern Perception 1430
Mark W. Cannon

VISUAL SEARCH AND ACCOMMODATION [Lecture]
William Reinhart (Chair)

Controlling Contrast in Target Acquisition Simulations Involving Complex Backgrounds 1435
William Kosnik

The Influence of Frame Rate and Resolution Reduction on Human Performance 1440
Merryanna L. Swartz, Daniel F. Wallace, and Sharon Tkacz

The Effects of Target Degradation and Interposed Surfaces on Visual Accommodations **
Naomi G. Swanson

Influence of Background Appearance on Visual Accommodation 1445
Russell A. Benel and Denise C. R. Benel

APPLIED DISPLAY FORMATS [Lecture]
David Osborne (Chair)

A Comparison of Three Attitude Display Symbology Structures during an Attitude Maintenance Task 1450
Eric E. Geiselman and Robert K. Osgood

Design of Instrument Approach Procedure Charts: Comprehending Missed Approach Instructions Coded in Text or Icons 1455
David W. Osborne and M. Stephen Huntley, Jr.

Analog and Digital Displays for the Detect, Diagnose, and Correct Phases in Fault Management 1460
Elizabeth H. Nutter and Sharolyn A. Converse

Assessment of Graphics and Text Formats for System Status Displays 1464
William A. Nugent and James W. Broyles

ISSUES IN VISUAL PERFORMANCE AND DISPLAY [Lecture]
Jennie Gallimore (Chair)

Flying with Dichoptic Displays: The Interplay between Display Characteristics and Attention Control 1469
Daniel Gopher, Ruth Kimchi, F. Jacob Seagull, Irit Catz, and Ori Trainin

Appropriate Ambient Illumination and Pupillary Dilation for Calibration of an Eye Gaze Response Interface Computer Aid 1474
Kelly L. Hughes

Display Viewing Distance Preferences for Two Structural Configurations 1479
Edward Trautman and Patrick Moskal

Response Time as a Measure of Compatibility for Linear Displays with Rotary Controls 1483
Errol R. Hoffmann, Sean Mannering, and Simon Schoner

OBJECT AND GRAPHICAL DISPLAYS [Lecture]
Anthony D. Andre (Chair)

The Influence of Color, Closure, and Correlation on Integral and Separable Displays 1488
Jeffrey Schmidt and Greg C. Elvers

Color Coding to Facilitate Performance of Focused Attention Tasks with Object Displays 1493
Sharolyn A. Converse, Sandra A. Kozar, and David Batten

Effects of Stimulus Complexity and Cognitive Style on Spontaneous Interpretations of Line Graphs 1498
C. Melody Carswell and Cathy Emery

Decision Statistic Mapping and Number of Information Dimensions on Decision Making with Graphical Displays 1503
Jennifer A. Mitchell and David W. Biers

*Abstract only
**Manuscript not submitted for publication

VIGILANCE AND MONITORING [Lecture]
Pamela S. Tsang (Chair)

Vigilance: It's Boring, It's Difficult, and I Can't Do Anything About It 1508
Mark W. Scerbo, Catherine Q. Greenwald, and David A. Sawin

Effects of Aircraft Noise on Vigilance Performance and Perceived Workload 1513
Ami B. Becker, Joel S. Warm, William N. Dember, JoAnn Sparnall, Laura DeRonde, and Peter A. Hancock

Monitoring Automation Failures: Effects of Automation Reliability and Task Complexity 1518
Robert Molloy and Raja Parasuraman

Enhancing Computer Displays to Support Coordination of Hemodynamic Monitoring and Treatment 1522
Judith A. Effken, Nam-Gyoon Kim, Endre Kadar, and Robert E. Shaw

AUTHOR INDEX TO VOLUMES 1 AND 2 1527

KEY WORD INDEX TO VOLUMES 1 AND 2 1531

*Abstract only
**Manuscript not submitted for publication
